Education

University of California, San Diego
B.S. Design & Interaction
Expected 2022

Leadership

UCSD Instructional Assistant | Jan. 2020 – March 2020
Led studios of over 50 students to teach human-centered design principles for DSGN 1: The Design of Everyday Things.

Experience

UX Researcher | Jan. 2020 - Present
Work with Colleen Emmenenger of The Design Lab at UCSD to research how autonomous vehicles can incorporate human-centered design.

Skills

Java, JavaScript, HTML, CSS, Bootstrap, Figma, Node.js, Prototyping, User Research, A/B testing, Photoshop

Certifications

Human-Centered Design: An Introduction | Oct. 2019
Created prototypes to deliver human-centered designs for transportation experiences. Offered by University of California, San Diego on Coursera.

Projects

Eco-Tracker | Jan. 2020 – March 2020
Implemented an app that motivates people to reduce their carbon footprint by converting their commute, food, and waste data to carbon emissions.
